ROCHESTER, MINNESOTA

FOREWORD

About seven years ago Illawarra Shorthorn semen was imported into this country for the first time - the first real breed outcross ever in this country. The results have been phenomenal! So successful in the eyes of dairyman the International Illawarra Assn. has been formed to accommodate the inclusion of Illawarra breeding into all dairy breeds.

Many will wish to attend this sale. Some we are sure out of curiosity, some as skeptics, others with an eye to expanding their dairy operations and establish a second breed, and others to take advantage of the opportunity to reach a registered status and grow and compete with a new and challenging dairy group.

For any of the above reasons, we welcome you.
